## **Amendments To Claims**

This listing of claims will replace all prior versions and listing of claims in the application.

- (Previously presented) A packaging system for absorbent products, said packaging system comprising:
  - an absorbent product;
  - a container enclosing said absorbent product, said container including an external surface;
  - c. a consumer message label attached to said external surface of said container, said consumer message label including a first swatch, wherein said first swatch includes a first predetermined feature and is available for direct sensory touch without opening said container; and
  - d. a cover adjacent to said first swatch, said cover having an aperture through which said first swatch is available for direct sensory touch without opening said container.
- 2. (Original) The packaging system as in claim 1, wherein said absorbent product in said container is a feminine care product.
- 3. (Original) The packaging system as in claim 1, wherein said absorbent product in said container includes said first predetermined feature.
- (Original) The packaging system as in claim 3, wherein said first swatch comprises at least a portion of said absorbent product having said first predetermined feature.
- 5. (Original) The packaging system as in claim 1, wherein said external surface of said container includes advertising of said absorbent product.
- 6. (Original) The packaging system as in claim 5, wherein said consumer message label is attached to said external surface adjacent to said advertising of said absorbent product.
- 7. (Canceled).

- 8. (Original) The packaging system as in claim 1, wherein said consumer message label further includes a backing surface attached to said external surface of said container.
- 9. (Canceled).
- 10. (Original) The packaging system as in claim 1, wherein said consumer message label further includes a second swatch, wherein said second swatch includes a second predetermined feature and is available for direct sensory touch without opening said container.
- 11. (Original) The packaging system as in claim 1, wherein said consumer message label is removable from said external surface of said container without damaging said container.
- 12. (Original) The packaging system as in claim 1, wherein said consumer message label further includes advertising of said predetermined feature.
- 13. (Original) The packaging system as in claim 12, wherein said advertising of said predetermined feature is printed on said consumer message label.
- 14. (Original) The packaging system as in claim 12, wherein said advertising of said predetermined feature is embossed on said consumer message label.
- 15. (Original) The packaging system as in claim 1, wherein said consumer message label substantially conforms to said external surface of said container.
- 16. (Original) The packaging system as in claim 1, wherein said first swatch is available for direct visual perception without opening said container.

## 17-20 (Canceled).

- 21. (Currently amended) A packaging system for absorbent products, said packaging system comprising:
  - a. an absorbent product;
  - b. a container enclosing said absorbent product, said container including an external surface:
  - a consumer message label attached to said external surface of said container, said consumer message label including a first swatch and a second swatch, wherein
    - i. said first swatch includes a first predetermined feature;

- ii. said second swatch includes a second predetermined feature;
- iii. said first and second predetermined features are not identical; and
- iv. said first and second swatches are available for direct sensory touch without opening said container
- d. wherein said consumer message label further includes a cover adjacent to said first swatch, said cover having an aperture through which said first swatch is available for direct sensory touch without opening said container.
- 22. (Canceled).
- 23. (Previously presented) The packaging system as in claim 21, wherein said consumer message label further includes a backing surface attached to said external surface of said container.
- 24. (Previously presented) The packaging system as in claim 21, wherein said consumer message label is removable from said external surface of said container without damaging said container.
- 25. (Previously presented) The packaging system as in claim 21, wherein said absorbent product in said container includes said first predetermined feature.
- 26. (Previously Presented) The packaging system as in claim 21, wherein said absorbent product in said container includes said first and second predetermined features.
